

KOLKATAR 10 DIGANTA

Drainage & Sewerage

- Water Logging Action Plan**
To combat increased water logging due to change in pattern of rainfall, experts from reputed institutes will be consulted to find sustainable and scientific solutions. Existing pumping stations and sewer lines will be upgraded along with procurement of 200 pumps
- Zero Blockage of Drains**
Regular mechanized desilting and cleaning drives for 'zero blockage' of the water inlets in addition to the covering of open drains with tiles and precast slabs
- Rejuvenation of Adi Ganga Canal**
Revamping of the Adi Ganga Canal with regular dredging and prevention of solid-waste dumping. Facilitation of water outlets from city pockets to the canal for better drainage of stormwater

Road Infrastructure

- Pothole Free Kolkata**
White topping of the major thoroughfare and black topping of all tertiary roads across the city in phases over the next 5 years. Advanced road repair technology to be used for regular maintenance
- Reduction of Traffic Congestion**
Construction of 50 escalator enabled footbridges and subways at major intersections in the city along with promotion of carpooling and widening of roads in requisite areas
- Parking Management**
Construction of 3 additional multi-level car parking lots, increased patrolling and introduction of a Smart Parking application
- New Age AC Bus Stops**
Construction of 500 AC bus stops for the convenience of the residents

Water Supply

- Treated and Continuous Water Supply**
Capacity expansion of Jorabagan, Garia and Jai Hind Water Treatment Plants, along with installation of 50 additional booster pumping stations to ensure clean water supply
- Water Harvesting and Recycling Plants - Future Ready Kolkata**
Mandatory installation of water harvesting and recycling structures at residential and commercial properties over 10,000 sqm

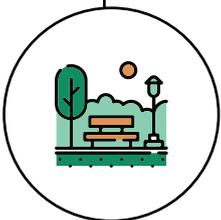

Nirmal Kolkata

- Scientific Waste Management**
Modernization of waste management through source segregation, collection and processing under a PPP model after assessing global best practices. State-of-the-art technology to be introduced in consultation with global experts for a complete overhaul of the existing waste management system
- Zero Open Dumping**
Elimination of open vats by ensuring zero open dumping of garbage and installation of an Underground Bin Container System in every 2 wards

Civic friendly Kolkata

- Market Restoration**
Restoration and upgradation of markets with all civic amenities including fire safety arrangements, adequate lighting, public toilets and parking facilities
- Beautification of Parks**
Development of Urban Miniature Forests at select parks in a phase wise manner. Installation of vertical gardens at all public buildings and new properties above 5 floors, flyovers and metro pillars in the city
- Zero dark spots in Kolkata**
Ensuring regular inspection and timely replacement of defunct lights with LED lights. Installation of street lights at every 30 meters in all wards
- Promotion of Electric Vehicles**
Increase in EV friendly infrastructure and charging stations to promote the usage of electric vehicles across the city, especially as a public mode of transportation
- SHE Toilet Complex**
Setting up of a dedicated SHE toilet complex in every ward equipped with a bathing area, sanitary napkins, and baby care rooms for the convenience of women residents
- Accessible Infrastructure for PwD**
Setting up tactile paths in the city, installation of ramps and handrails along with braille signs in all the public spaces to improve accessibility for persons with disabilities

Education

- **Upgradation of Municipal Schools**
Conversion of 100 municipal schools into English medium and upgradation of school infrastructure with smart classrooms, updated curriculum and activity list for holistic development of the students

Health

- **Holistic Healthcare**
Setting up of Annexure Health Care Centres along with doubling the capacity of all 144 UPHCs across the city for the convenience of residents. All UPHCs will be functional 7 days a week and upgraded with state-of-the-art medical amenities
- **Immunization Awareness Programs**
Ensuring 100% immunization coverage in the city by conducting door-to-door vaccination and awareness drives
- **Dengue-Free Kolkata**
Setting up 30 new dengue detection centres in addition to seasonal cleaning and fumigation drives to ensure dengue-free Kolkata

Social Welfare

- **Shelters for Urban Homeless**
Doubling the number of existing shelters run by KMC for the urban homeless with an introduction of 2 dedicated family shelters
- **Model Slum Initiative**
Zone-wise identification of slums and upliftment of civic amenities through the facilitation of community toilets, covered drains, regular water supply and high mast poles to ensure dignified living conditions
- **Skill Development Centres**
Increasing the capacity and the number of vocational courses offered in the existing Skill Development Centres under Utkarsha Bangla
- **Promotion of local SHGs**
Identification of SHGs at the ward level to facilitate monthly markets where they can participate and sell their produce in addition to ensuring their access to existing State Government schemes
- **Welfare of Municipal Staff**
Better working conditions, improved reward structure and guaranteed social security for all municipal staff
- **KMC run Community Halls**
Facilitating a KMC run community hall in every ward over the next five years, in order to ensure that all residents get access to affordable social gatherings

Governance

- **Ward Planning Committee**
Setting up of a Ward Planning Committee with representation from local residents and stakeholders who will hold monthly meetings to discuss, deliberate and implement developmental initiatives on a ward level
- **Ward level Grievance Redressal Cell**
Setting up a Grievance Redressal Cell for every ward at the Councillor's office, where residents can directly contact their councillor for real-time redressal of ward level grievances
- **Paray Samadhan App**
A new mobile app will be launched where citizens can upload a geotagged photo of any unkempt road, drain or vat on the app, following which the problem will be resolved within 14 days
- **Online Municipality Services**
Online facilitation of all applications and KMC services for greater convenience of the residents

Culture and Tourism

- **Beautification of Ghats**
Beautification and upgradation of ghats with facilities such as covered changing rooms, functional pay and use toilets, dustbins and handrails
- **Heritage Walks**
Launching flagship heritage walks around Kolkata, familiarizing tourists and enthusiasts with heritage buildings, ghats and places of historical and cultural significance
- **Art Districts**
Initiating a pilot Art District project to promote local artisans to beautify walls and streets of Kolkata, the first Art District project will be initiated in Southern Avenue
- **Cultural Festivals**
Organizing a yearly Art Festival and Music Conference under the patronage of KMC, where stalwarts and budding artists will get a platform to showcase their talents
- **Mayor's Sports Meet**
Organizing a yearly sports meet under the patronage of KMC, where borough level teams will participate in various sporting activities like cricket, football and athletics. Winning borough level team will be awarded the Mayor's Cup
